

The background features several hand-drawn physics diagrams and equations in blue ink. On the left, there is a diagram of a rectangular prism with a dashed line representing a hidden edge, and an arrow pointing from it towards the right. Above this, there is a zigzag line labeled T_{ir} . In the center, there is a large bracketed area containing the equation $\frac{d\Delta_0(x)}{dx}$. To the right of this, there is another equation $\frac{d\Delta H(x)}{dx}$. At the top, there are more faint equations, including $\frac{\partial}{\partial t}$ and $\frac{\partial}{\partial x}$. The overall style is that of a student's physics notebook.
